## Profile

Detail-oriented, organized, and meticulous employee. Works at a fast pace to meet tight deadlines. Enthusiastic team player ready to contribute to company success. Highly skilled software development professional bringing enormous software design, development, and integration talents. Offering advanced knowledge of in-demand programming languages. Background writing code and developing systems for Web applications.

## Employment History

### Software Developer, SIDIA Institute of Science and Technology (Samsung), Manaus

NOVEMBER 2021 – OCTOBER 2023

Planned website development, converting mock-ups into usable web presence with HTML, JavaScript, Typescript, and JSON coding. Expanded development efforts to include related platforms and protocols such as SOAP, REST, and database technologies like SQL. Multi-tasked across multiple functions and roles to generate project results and meet deadlines and organizational expectations. Revised, modularization, and updated old code bases to modern development standards, reducing operating costs and improving functionality.

### Junior Full Stack Developer, Groupe MM - Mercadomóveis, Manaus

AUGUST 2021 – NOVEMBER 2021

Planned website development, converting mock-ups into usable web presence with HTML, JavaScript, Typescript, and JSON coding. Pulled from PHP, SQL, JavaScript, and other back-end library knowledge to bolster programming resources. Expanded development efforts to include related platforms and protocols such as SOAP, REST, and database technologies like SQL. Designed intuitive graphical user interfaces using knowledge of serial communications and database design to improve user experience. Developed user-oriented visuals and features using front-end languages to increase site traffic.

### Junior Full Stack Developer, Silva Ramos Systems, Manaus

DECEMBER 2020 – NOVEMBER 2021

Planned website development, converting mock-ups into usable web presence with HTML, JavaScript, Typescript, and JSON coding. Pulled from PHP, SQL, JavaScript, and other back-end library knowledge to bolster programming resources. Coded websites using HTML, CSS, JavaScript, and JQuery languages. Wrote server-side and client-side code for Angular and React projects using PHP, HTML, CSS, and JavaScript, specifically with the Laravel framework. Planned and engineered Restful web services to manipulate dynamic datasets. Built user interface, and data visualizations and designed overall user experience, resulting in a 10% increase in sales

### Junior Full Stack Developer, Institute Xavier services in I.T., Manaus

JUNE 2020 – DECEMBER 2020

Planned website development, converting mock-ups into usable web presence with HTML, JavaScript, Typescript, and JSON coding. Pulled from PHP, SQL, JavaScript, and other back-end library knowledge to bolster programming resources. Coded websites using HTML, CSS, JavaScript, and jQuery languages. Wrote server-side and client-side code for Angular projects using PHP, HTML, CSS, and JavaScript, specifically with the Laravel framework. Planned and engineered Restful web services to manipulate

dynamic datasets. Conceived and built optimized landing pages in HTML and CSS for integration and cross-browser compatibility

## Education

### **Bachelor of Science: Computer Engineering, FUCAPI College, Brazil**

JULY 2012 – JULY 2020

The course focused on training professionals capable of operating in an expanding local technology market, which requires integrated knowledge of electronic and computer engineering. For this, the course aims to train professionals able to specify, design, develop, maintain, and manage computer systems (hardware and software) applied to the local context.
